MISHAWAKA - Federal officials said this morning they were arresting illegal immigrants at Janco Composites on South Logan Street in Mishawaka.

"I can tell you there is an ongoing work site enforcement operation taking place today," said Gail Montenegro, a spokeswoman for U.S. Immigration and Customs Enforcement. "We are making arrests today of workers who are violating immigration laws."

In addition, Montenegro said, officials were executing a criminal search warrant.

"It remains an ongoing investigation," she said, adding that she could not immediately say how many people had been arrested.
