INTRODUCTION

Statistical data on immigration have been published annually by the U.S. government since the 1890s. Over the years, the federal agencies responsible for reporting on immigration have changed, as have the content, format, and title of the annual publication. Currently, immigration data are published in the *Yearbook of Immigration Statistics* by the Office of Immigration Statistics (OIS) in the Policy Directorate of the Department of Homeland Security (DHS).

The *2004 Yearbook of Immigration Statistics* consists of a compendium of tables organized by subject matter, including:

Immigrants (Tables 1 to 11)

Immigrants are persons who have been granted lawful permanent residence in the United States. They are also known as legal permanent residents (LPRs) or “green card” recipients.

Refugees and Asylees (Tables 12 to 21)

Refugees and asylees are persons who sought residence in the United States in order to avoid persecution in their country of origin. Persons granted refugee status applied for admission while outside the United States. Persons granted asylum applied either at a port of entry or at some point after their entry into the United States.

Nonimmigrant Admissions (Tables 22 to 30)

Nonimmigrant admissions refer to arrivals of persons who are authorized to stay in the United States for a limited period of time. Most nonimmigrants enter the United States as tourists or business travelers, but some come to work, study, or engage in cultural exchange programs.

Naturalizations (Tables 31 to 34)

Naturalizations refer to persons ages 18 and over who become citizens of the United States. Most legal permanent residents are eligible to apply for naturalization within five years after obtaining LPR status.

Enforcement Actions (Tables 35 to 47)

Enforcement actions include the apprehensions, investigations, detention, and removal of foreign nationals who are in violation of the Immigration and Nationality Act. These actions occur at the borders of the United States, in the interior of the country, and at designated sites outside the United States.

With a few exceptions, the tables presented in the *2004 Yearbook* are identical to those that appeared in the *2003 Yearbook*. However, beginning in 2004, the subject matter chapters previously included in the *Yearbook* have been released in the *Annual Flow Report* and *Annual Report* series on the website of the Office of Immigration Statistics at <http://www.dhs.gov/immigrationstatistics>.

Data Sources

The data presented in the *2004 Yearbook* were obtained primarily from workload and case tracking administrative systems of DHS. Unless otherwise noted, the data sources are the same as those in the tables of the *2003 Yearbook*.

Confidentiality

The Office of Immigration Statistics is committed to protecting the identity of individuals reported in the *Yearbook of Immigration Statistics*. All data tables, therefore, have been edited to avoid divulging information about any individual by either direct or indirect means. The practice of cell suppression has been employed by placing a “D” (disclosure standards not met) in any cell that would show a count of 1 or 2, or in any associated cell that might be used to reveal such a count through calculation. The process of suppression does not change the marginal totals, so the integrity of the data is not affected.

Table 2.**IMMIGRATION BY REGION AND SELECTED COUNTRY OF LAST RESIDENCE: FISCAL YEARS 1820 TO 2004 – Continued**

– Represents zero.

¹ Data for years prior to 1906 relate to country whence alien came; data from 1906 – 79 and 1984 – 2004 are for country of last permanent residence; and data for 1980 – 83 refer to country of birth. Because of changes in boundaries, changes in lists of countries, and lack of data for specified countries for various periods, data for certain countries, especially for the total period 1820 – 2004, are not comparable throughout. Data for specified countries are included with countries to which they belonged prior to World War I.

² Data for Austria and Hungary not reported until 1861.

³ Data for Austria and Hungary not reported separately for all years during the period.

⁴ No data available for Czechoslovakia until 1920.

⁵ Prior to 1926, data for Northern Ireland included in Ireland.

⁶ Data for Norway and Sweden not reported separately until 1871.

⁷ No data available for Romania until 1880.

⁸ Since 1925, data for United Kingdom refer to England, Scotland, Wales, and Northern Ireland.

⁹ In 1920, a separate enumeration was made for the Kingdom of Serbs, Croats, and Slovenes. Since 1922, the Serb, Croat, and Slovene Kingdom recorded as Yugoslavia.

¹⁰ From 1957 to 1979, China includes Taiwan.

¹¹ Data not reported separately until 1952.

¹² Data not reported separately until 1925.

¹³ Data not reported separately until 1949.

¹⁴ Data not available for Japan until 1861.

¹⁵ Data not reported separately until 1948.

¹⁶ Prior to 1934, Philippines reported as insular travel.

¹⁷ Prior to 1920, Canada and Newfoundland recorded as British North America. From 1820 – 2001, figures include all British North America possessions.

¹ The number of aliens apprehended were first recorded in 1925. Until 1960 those statistics did not include crewmen who violated the conditions of their stay in the United States because their vessel did not leave the United States within 29 days. Beginning in 1960 the statistics for apprehensions include the counts of those crewmen. For purposes of statistical reporting there is no difference between the terms “apprehension” and “deportable alien located”.

² The three-month period — July 1 through September 30, 1976 — between fiscal year 1976 and fiscal year 1977.

³ Includes all Border Patrol Apprehensions and Immigration and Customs Enforcement (ICE) Investigations administrative apprehensions along with criminal arrests for fiscal years 1925 through 2003. For fiscal year 2004, includes Border Patrol apprehensions and ICE investigations administrative apprehensions only. Excludes ICE criminal arrests in fiscal year 2004.

¹ Human trafficking cases include investigations into alleged violations of severe forms of human trafficking which is defined by the Trafficking Victims Protection Act of 2000 as, "the recruitment, harboring, transportation, provisions or obtaining of a person: (1) for labor or services, through the use of force, fraud, purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery, or (2) for the purpose of a commercial sex act in which such act is induced by force, fraud, or coercion, or in which the person induced to perform such act has not attained 18 years of age."

² Criminal alien cases include large-scale organizations engaged in ongoing criminal activity and individual aliens convicted of crimes such as terrorism or drug trafficking.

³ Employer investigations target employers of unauthorized aliens and include criminal investigations, administrative investigations, auxiliary investigations, ICE Headquarters Investigation Project, and Department of Labor ESA-91. Starting in FY 2003, also includes statistics pertaining to Work Site Enforcement National Interest Investigations.

⁴ Fraud investigations seek to penetrate fraud schemes of all sizes and degrees of complexity which are used to violate immigration and related laws or to shield the true status of illegal aliens in order to obtain entitlement benefits. The fraud schemes may be related to marriage fraud, immigration benefit fraud, employer sanctions document fraud, other document fraud, and entitlement fraud.

⁵ Smuggling cases involve those which target persons or entities who bring, transport, harbor or smuggle illegal aliens into or within the United States.

⁶ Includes Entry Without Inspection (EWI), such as stowaways, or landed crewmen who were ordered detained on board, and status violators. The latter category pertains to alien apprehensions for violating the terms of admission, e.g., staying longer in the United States than permitted. Frequently, such aliens are not themselves investigative targets, but are located during other investigations.

⁷ FBI Joint Terrorism Task Forces (JTTF) include ICE Special Agents who perform counter-terrorism investigations and provide actionable proactive counter-terrorism lead information, in efforts to prevent and disrupt alien terrorist cells domestically and abroad.

NOTE: Data refer to criminal cases only; administrative cases are not included due to changes in reporting. Data in this table are not comparable with data reported in this table for previous years.

¹ Formal removals include deportations, exclusions, and removals.

² Voluntary departures verified includes aliens under docket control required to depart and voluntary departures not under docket control; first recorded in 1927. Beginning FY 2004, voluntary departures verified include both Deportable Alien Control System (DACS) cases under docket control and Performance Analysis System (PAS) Border Patrol voluntary departures verified-cases not under docket or aliens processed for removal under safeguard. The latter is used as a measure of border patrol voluntary departures verified-cases not under docket. In FY 2004, complete Detention and Removal Office district level figures for voluntary departures-cases not under docket are unavailable in PAS and as a result are excluded for that year. Prior to FY 2004, the reporting of voluntary departures verified included all locations, Border Patrol Sectors and districts.
