INTRODUCTION

Statistical data on immigration have been published annually by the U.S. government since the 1890s. Over the years, the federal agencies responsible for reporting on immigration have changed, as have the content, format, and title of the annual publication. Currently, immigration data are published in the *Yearbook of Immigration Statistics* by the Office of Immigration Statistics (OIS) in the Policy Directorate of the Department of Homeland Security (DHS).

The *2005 Yearbook of Immigration Statistics* consists of a compendium of tables organized by subject matter, including:

Legal Permanent Residents (Tables 1 to 12)

Legal permanent residents (LPRs) are persons who have been granted lawful permanent residence in the United States. They are also known as “green card” recipients.

Refugees and Asylees (Tables 13 to 19)

Refugees and asylees are persons who sought residence in the United States in order to avoid persecution in their country of origin. Persons granted refugee status applied for admission while outside the United States. Persons granted asylum applied either at a port of entry or at some point after their entry into the United States.

Naturalizations (Tables 20 to 24)

Naturalizations refer to persons ages 18 and over who become citizens of the United States. Most legal permanent residents are eligible to apply for naturalization within five years after obtaining LPR status.

Nonimmigrant Admissions (Tables 25 to 33)

Nonimmigrant admissions refer to arrivals of persons who are authorized to stay in the United States for a limited period of time. Most nonimmigrants enter the United States as tourists or business travelers, but some come to work, study, or engage in cultural exchange programs.

Enforcement Actions (Tables 34 to 42)

Enforcement actions include the apprehensions, investigations, detention, and removal of foreign nationals who are in violation of the Immigration and Nationality Act. These actions occur at the borders of the United States, in the interior of the country, and at designated sites outside the United States.

Technical Data Notes

The data presented in the *2005 Yearbook* were obtained primarily from workload and case tracking administrative systems of DHS. Information on data sources and definitions is available at <http://www.dhs.gov/immigrationstatistics>. Some of the tables included in the *2005 Yearbook* are new while others were substantially revised from previous years. Numbers appearing for a given year may differ in subsequent *Yearbooks* because of updating of the data series. Data on legal permanent residents, for example, for the 1973 to 2004 period have been revised to reflect the elimination of duplicate records.

Confidentiality

The Office of Immigration Statistics is committed to protecting the identity of individuals reported in the *Yearbook of Immigration Statistics*. All data tables, therefore, have been edited to avoid divulging information about any individual by either direct or indirect means. The practice of cell suppression has been employed by placing a “D” (disclosure standards not met) in any cell that would show a count of 1 or 2, or in any associated cell that might be used to reveal such a count through calculation. The process of suppression does not change the marginal totals, so the integrity of the data is not affected.

¹ Financial investigations refer to cases developed to counteract organizations involved in money laundering and related financial crimes.

² Human smuggling and trafficking investigations refer to cases targeted against persons or organizations that bring, transport, harbor, or smuggle illegal aliens into or within the United States.

³ General investigations refer to general investigative activities, including those targeting aliens who attempt illegal reentry, have absconded, or commit other crimes in the United States. Criminal alien investigations focus on large-scale organizations engaged in ongoing criminal activity.

⁴ Identity and benefit fraud investigations seek to penetrate fraud schemes that are used to violate immigration and related laws, or used to shield the true status of illegal aliens in order to obtain entitlement benefits from federal, state, or local agencies.

⁵ The compliance enforcement program focuses on preventing foreign nationals from exploiting the nation's immigration system by developing cases for investigation from Department of Homeland Security systems containing information on the status of students and other nonimmigrants.
